EXPERIENCE

Front End Web Developer
Alexander Academy
July 2021 to January 2022
- Used Webflow to host site and for simple web pages
- Created custom HTML/CSS/JS components from ideas and pictures
- Integrated complex JS sorting system with custom dropdown menus
- Worked with multiple developers with skills in responsive design
- Kept on for future company projects due to the quality and standard of my work

iOS Developer
spllit iOS app
May 2021 to Present
- Designed and developed entire iOS app using SwiftUI and Firebase
- 20+ downloads across 4 regions in the first 30 days
- Over 20 updates so far, still actively adding new fixes and features
- Source code available on GitHub
- Available for download on the App Store

Lead Software Developer
Queen's University iCons Equipment Rental app
January 2021 to April 2021
- Lead team of 6 students to design and create accessible solution to supply rental
- Implemented iOS and Android apps with Firestore database
- Created an online web portal to manage staff and inventory in realtime
- Reduced time needed to fulfill orders and increased efficiency of the entire system
- Source code available on GitHub
